Between the Warring Temperance Factions.

A FIGHT FOR LEADERSHIP

Is the Cause of the Trouble, as Explained by Lawyer Price.

HE RUBS SOME W. C. TU. LEADERS,

And Says They Would Rather Defeat Prohibition Than Join

IN COMMON WITH THE OTHER WORKERS

There is no doubt that certain complications have arisen in the ranks of the temperance people since the announcement of burg on February 5, and affairs have become result. even more awkward since the Constitutional Amendment Association and the W. C. T. U. of this city have both refused to send delegates to the conference.

In order to get at the secret of this disaffection, W. M. Price, Esq., a well-known lawyer, and a member of the National and gave some lively inside views of the present difficulty that will be somewhat amazine to those who imagined all was serene.

Prohibition party, calling a general conference in Harrisburg," said he, "I most heartily favor his good reasons and good intentions in the matter. I will attend the conference myself, and do all in my power to assist and consummate a combination of all the temperance organizations of the State under one common head, to lay plans, and to carry out these plans, for a successful and general campaign.

PROHIBITIONISTS MODEST. "I do not believe that the political organizers of the Prohibition party should lead, nor do I believe they desire to lead, this

fight as a political party. "My intermation is that the Constitutional Amendment Association has, up to this time, declined to participate in this coming conference, claiming that it (the Amendment party), being strictly non-

partisun, should lead in the fight. "Now, there will be no effort made by the Prohibition leaders anywhere in the State to dominate or lead this fight to the exclusion of other organizations. There is not a word of truth in the statement that they want to lead This, I know, and more; if there is any possibility of all the organizations coming together as one, the Prohibition party will be perfectly willing, not only to unite, but to push to the front men of other organizations to take the lend. both national and State temperance and

"There isn't a single Prohibition leader or voter in Pennsylvania but is anxious to assist in the adoption of the amendment, even

the State is concerned, 1 believe the rank and file of the union are ready and anxious to joln hands with all organizations on a common ground.

There are certain leaders in this part of the State, however, who so utterly despise the third party Prohibitionists that they would rather see the amendment defeated than join hands with the Prohibitionists on a common ground and win.
"Nothing would please me more, and

nothing would please the party of Prohibition more, than even to be permitted to make a fight for the amendment on a common ground with these organizations, hand in hand with the Constitutional Amendmentites and the W. C. T. U. Whether we will be permitted to do so, however, remains

"The Prohibition party will lay entirely aside its political status in this fight, no matter what may be the consummation of the proposed conference at Harrisburg on February 5," said Mr. Price emphatically

In view of the points now at issue between the W. C. T. U. and the Prohibition party, a little history as to the Constitutional amendment party may not be out of place.
This history is furnished by a well-known temperance leader, who goes on to say that the famous party was organized by

eight years ago. This gentleman's name is Dr. Starr, and he was the very first to conceive the idea of such a party, and to push the architect of the buildings, presented its organization. A few years ago the Constitutional

amendment party took in the W. C. T. U., and from that time, the historian said, jealousy and party feeling arose. The up-shot of the matter was that the W. C. T. U. of this end of the State gradually took also said by the same gentleman that, instead of having a membership of 50,000, as said, the actual membership of the amendment party as a party does not exceed 10,000.

This little history, which is vouched for, may explain why, when the Pittsburg end of the W. C. T. U. refused to participate in a general conference at Harrisburg, the Constitutional Amendment Association made the same refusal.

It is said that Chairman Stevens has invited Powderly to join in at the conference. This, if true, will certainly create more than even State interest, as Powderly is well known to be a total abstainer.

THINKS IT WILL PASS.

Ex-Senator Arnelt Believes the People

Wants Probibition. Ex-Senator M. A. Arnolt, who succeeded in 1883 in bringing about the defeat of the Prohibition amendment introduced into the Legislature at that time, says the following in an interview with a DISPATCH man: "I am confident that the amendment will

go through this time. Of course my opinions on the subject are to-day the same they were six years ago. It is, therefore, unnecessary for me to say that I do not believe the amendment is a measure which should be passed. The fight was a very hard one, even then, and I fought, tooth and nail, for its detent. But the only way I could do it was to weigh the bill down with so many amendments that it had to sink.

"To-day, however, things are entirely changed. The people are not exactly sure want they want, and I think that there is a prevailing sentiment which indicates that t might be as well to have a trial of probibition, just to see how it works. The Prohibition party has worked very hard in this State during the last lew years, and the ex-

isting elements all tend toward it.
"The farmer will vote for it. Then a good many people who are so weak-minded that they can only lead a sober lite when liquor is out of their reach, they also will indorse prohibition; and, last but not least, the sale loon keeper who did not get a license last year will vote for it, because, since he can't keep a saloon himself, he does not like to see anybody else behind a bar."

The Dangerous Condition in Which the Real Dectors Find Victims of Bogus Prescribers on the Southside. A prominent Southside doctor was called to see a child a few days since, who was

The child has grown worse, and, on inquiry, it was found Greets the Eyes, and an Epicurean Feast that other doctors had similar cases. When seen, the "doctor" said the medicine was composed of certain ingredients, while his partner differed about the same.

The usual practice is for the alleged doctor to call at a house and, on seeing a child, declare that it has worms or some disease, and then endeavor to sell his "vermifuge" or other medicines. The medicine is said to contain santonine, potophyline (or extract of May-apple root), camomile and sugar; and, on consultation, the real doctors all agree that the ingredients are injurious, and as such the people ought to be warned At a meeting of the doctors Monday night, the subject was brought up and discussed, in case a patient should die while under treatment to what cause the physician should assign as the cause of death, and it was generally agreed that the certificate should be made out as resulting from poison administered as an alleged medicine. siderable worriment was expressed for fear an intended general conference in Harris- that some of the cases might lead to that

At one end of the room had been placed a slightly elevated table at which were seated the honored guests of the club and the mast r of ceremonies. The center table had been reserved for the most beautiful of the floral decorations. A huge column of pink carnations, its fragrant top capped by a composing stick of white carnations, and bearing the word "Press," attracted much attention. The toast "Labor" was to have been responded to by Mr. Eccles Robinson, but, owing to his sudden illness, he could not respond.

Hon. F. H. Collier responded splendidly to the toast, "The Judiciary," His remarks were in a humorous but telling vein. He said he could not "taffy" the judiciary, as he was a member of it, and he dared not condemn it. The relation which the press bears to the bar was a subject for his comments. By the power of the press the world knows the actions of the courts and in turn judges them. "Gentlemen," he said, in conclusion, "I won't taffy you. You are not better than we, but you are just as good. Allow me to express as a sentiment, "The Press, the strong right arm of the judiciary; may it thrive forever."

Rev. William Mackaye responded to the toast, "The Fress and the Pulpit." His remarks were particulally bright and appropriate. Rev. Mackaye explained that he had been serving his country on the jury for the past few days and lad great fears that he would be locked up last night with 11 of his obstinate countryman, and like a character in "Julius Casar" would have been compelled to say to his keeper "There is some one in the press calling to me." He then explained that the press and the pulpit were inseparable in their labors of educating man up to a higher moral standard, but that the printed words would never take the place of the spoken ones. He expressed a wish that both the pulpit and the press would rise to a greater power in the land.

"The Reporter as Others Sce Him" was the toast to which Mr. W. R. Ford responded. He described the reporter as the world sees him, which, he said, is often in a mistaken sense.

Major S. Omohundro, of Thie Dispartit, responded to the toast "The Veterans." His address was one of praise for his comrades. Owing to the absence of Major E. A. Montooth, Mr. Richard Johnston responded to the toast "The Ladies." Mr. Henry Hall, who was to have responded to the toast "The Paragrapher," was absent.

Mr. G. F. Mueller, of the Bulletin, responded to the toast, "Our Dead." During the past year two members of the club have died, Mr. Cornelius Shaw and Mr. William Kinnaird, both of The Disparth.

Rev. Dr. Higbee, State Superintendent of the Public Schools, made a few remarks, and the second annual dinner of the Pittsburg Press Club became a thing of the past.

President Campbell, of the Window Workers, Denles a Story.

A story was circulated on Monday and published yesterday to the effect that the Window Glass Workers' Association had \$61,000 in the treasury when President Isaac Cline resigned, and now there is only \$68,-000 in the treasury. This small increase although the members paid their dues as usual, gave rise to an inference that somebody was using the cash illegally.
President Campbell, of the Window Glass

A MOST SIGNIFICANT STATEMENT.

For the purpose of getting at the other side of the question, a DISPATCH reporter called upon Mr. D. B. Oliver, of the firm of Oliver Bros. & Phillips, and questioned him in regard to the matter. Mr. Oliver emphatically stated that if the men persisted in their present course they would drive all this trade away from Pittsburg. They would not only hurt themselves by losing the work, but they would entail great loss to their employers. Mr. Oliver said:

The Pittsburg Traction road, the first one Quarrymen on Strike. The employes of the Carbon Limestone Company, whose quarries are located at Carbon and Hilltown, Pa., went on a strike vesterday for an advance of 5 cents per ton.

WHIRLED AROUND A WHEEL.

They now receive 15 cents. Nearly 400 men

to their employers. Mr. Oliver said:

The Pittsburg Traction road, the first one laid here, was put down by Oliver Bros. & Phillips and Riter & Couley. Each firm had one-half of the road. The castings amounted to several thousand tons, and were all made in this city. In making the yokes the union molders would only make one yoke per day per man, and then work by the day.

The yokes weigh 460 pounds each, and this makes very expensive molding. In other cities the men work by the piece, and make three or more yokes per day per man.

When the Citizens' Traction Company job was let, the high cost of Pittsburg castings lost the job to this city, and the entire lot was taken by Eastern parties at prices much below cost in Pittsburg, at our rates for labor.

As the Central Traction job is about being let, I suggested to our men the necessity of their removing their restrictions as to piece work, so as they could work by the piece and make all the money they can, or else the job would go away from Pittsburg, as the Citizens' contract did. SWITCHES AND SIGNALS PAY.

The Union Switch and Signal Co., Declares a 6 Per Cent Dividend. The Directors of the Union Switch and Signal company held a meeting yesterday afternoon in Mr. T. A. Rowand's office, in the Westinghouse Electric Company's Building. After the financial report had been

clare a 6 per cent dividend on the preferred stock of the company.

The company has a capital stock of \$1,-500,000, of which amount \$500,000 is preferred stock. The latter is entitled to a dividend of 6 per cent before the common stock receives any; and it is also entitled to a further dividend of one-half of 1 per cent, for each 1 per cent paid on the common stock until all the stock receives 12 per

cent. The total amount of profits of the compa ny during the last year amounted to \$80,000, of which sum \$30,000 was used to reduce the

company's indebtedness.

If the expectations of the officers of the company, with reference to the business of the present year, be realized, and if the buffer manufacture, which is an addition to the former business, assumes the probable proportions expected, the Union Switch and Signal Company is bound to become more prosperous than ever. The increasing de mand made upon the railway people by the public for the use of the most approved safety devices, makes the appliances of this company's manufacture more neccessary.

THE HON. E. E. HIGBEE HERE.

He Will be the Guest of G. W. Luckey and Then Depart for Butler. The limited, which was only 40 minutes behind time when it arrived in the Union depot last night, brought Hon. E. E. Higbee, the State Superintendent of the Public Instruction of Pennsylvania, to the city. He was received at the station by Superin-

Charles Reisfar, who immediately conducted their visitor to the Press Club banquet at the Duquesne Hotel.

The honorable gentleman will stay in Pittsburg to-day, as the guest of Mr. Luckey. During the afternoon he will visit the Thirty-second ward school, and to-morrow he will depart for Butler.

A COAL OPERATOR DEAD. Mr. John C. Risher Passes Away After an

Iliness of Several Weeks. Mr. John C. Risher, one of the oldest coal perators in this section, died yesterday after an illness of several weeks. He was 74 years of age, and has been in the coal business, operating mines on the Monongahela river, for over 30 years. He was connected with the firm of J. C. Risher & Co., and ived at No. 138 Fayette street, Allegheny. The funeral services will be held at his former home at Dravosburg to-morrow afternoon. The remains will be interred in the cemetery near that place.

A SURGEON'S JOB.

Dr. McCann Cuts a Big Tumor Out of Miner Garrett's Side. A coal miner by the name of Garrett, near Sharpsburg, had a 13-pound tumor, which protruded from his side like a large stiff hat cut out yesterday by Dr. James McCann at the West Penn Hospital. He bore up under the operation with remarkable nerve and is doing well. The doctor thinks the man will get along all right. The un-fortunate miner worked at hard labor in the mines until last Friday, when he was forced to give up and have the operation per-formed.
